

# CHOSOURCE™ Expression Platform.

Empowering  
biotherapeutic  
production

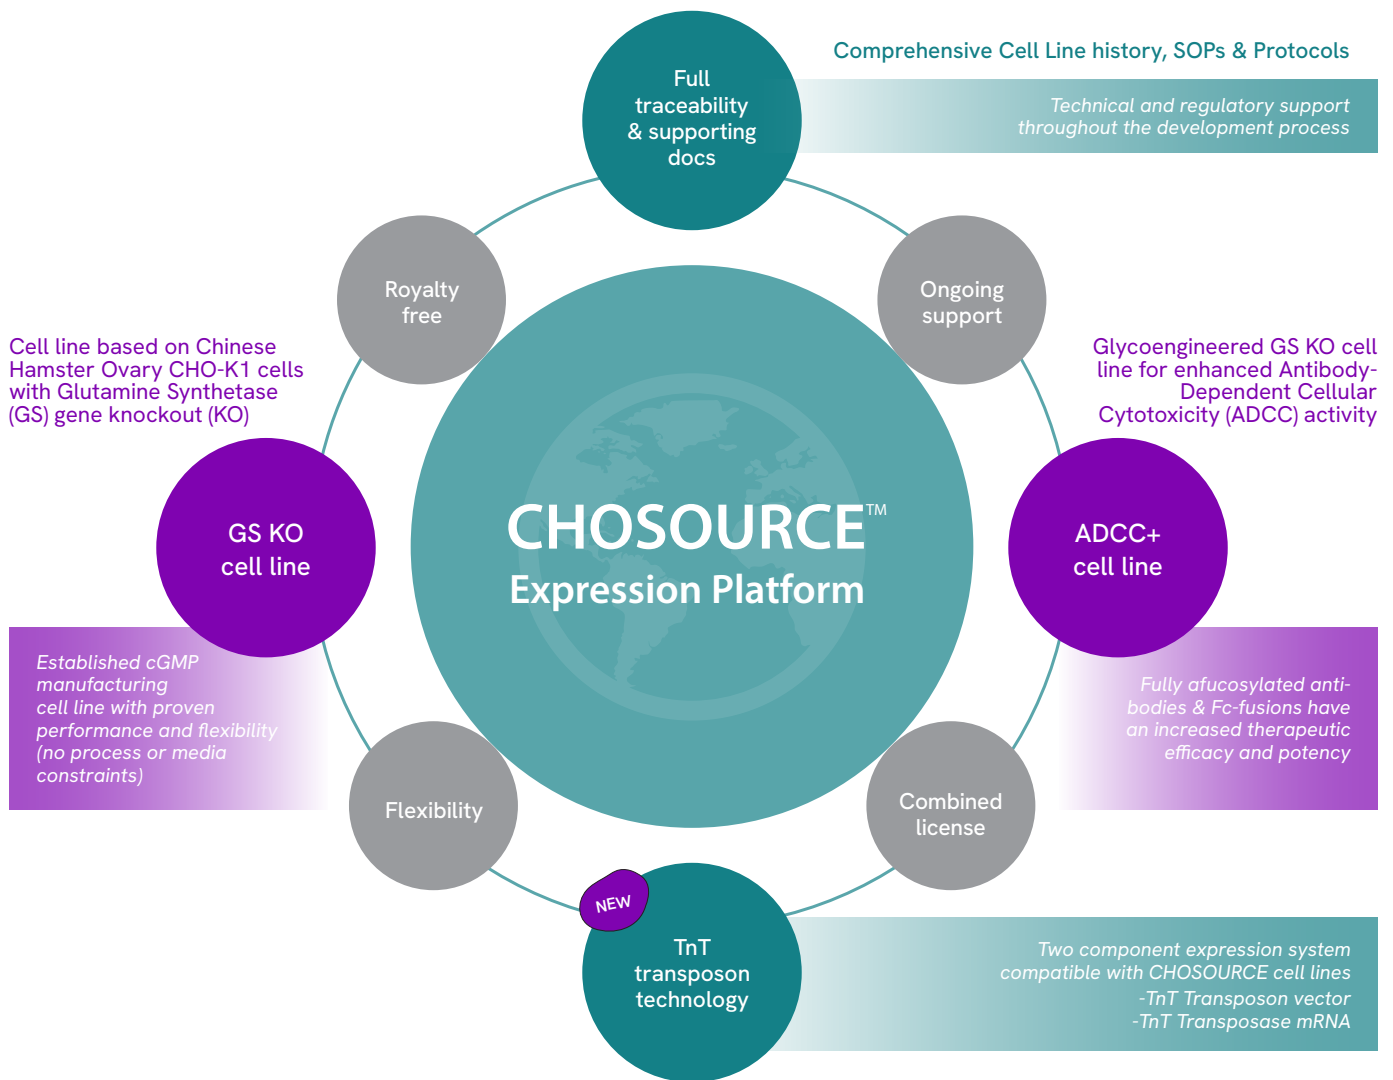

revvity

Leverage a decade-long experience in cell line  
development with CHOSOURCE™ Expression Platform.

# CHOSOURCE™ Expression Platform

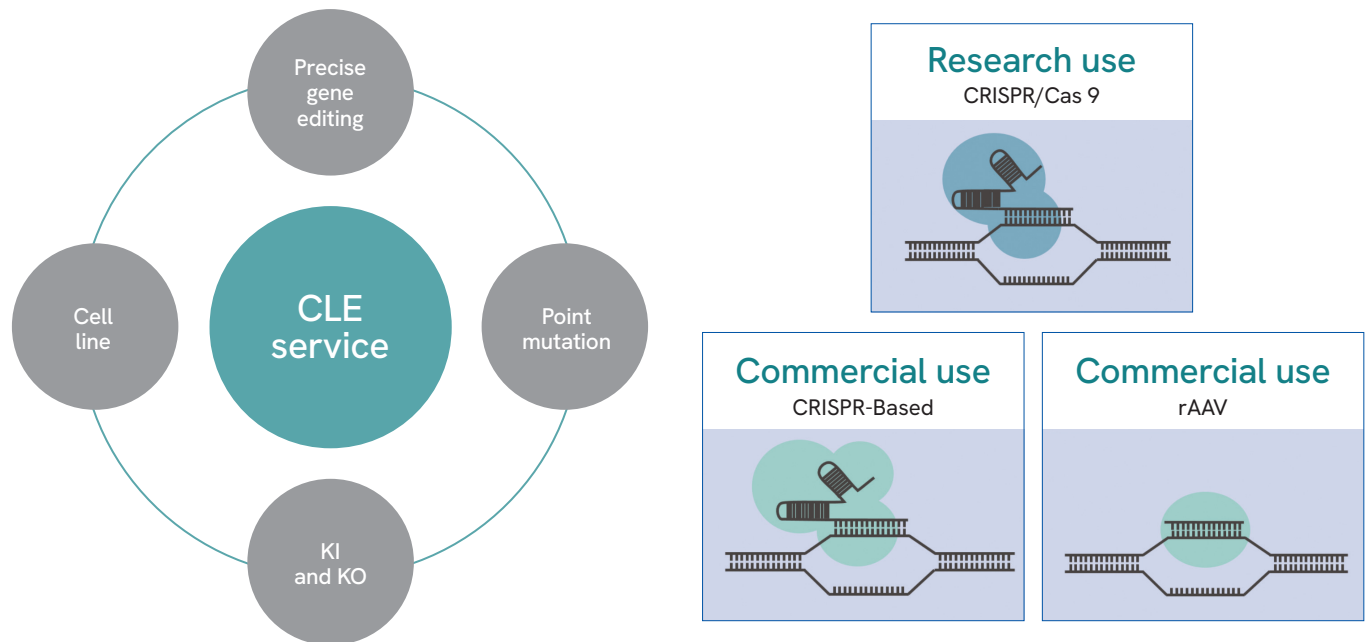

The CHOSOURCE™ platform offers a state of the art expression platform for the development and manufacturing of biotherapeutics compatible with customer existing processes.

**Worldwide presence**  
 100+ licensees  
 60+ INDs since 2018  
**Proven Track Record**

# Cell Line Engineering (CLE) Service

Revvity's CLE service offers customised editing for the enhancement of expression cell lines used in research and manufacturing of biotherapeutics. The service can be offered for the editing of our CHOSOURCE™ cell lines (GS KO and ADCC+) as well as other cell lines that may be used in commercial manufacturing applications.

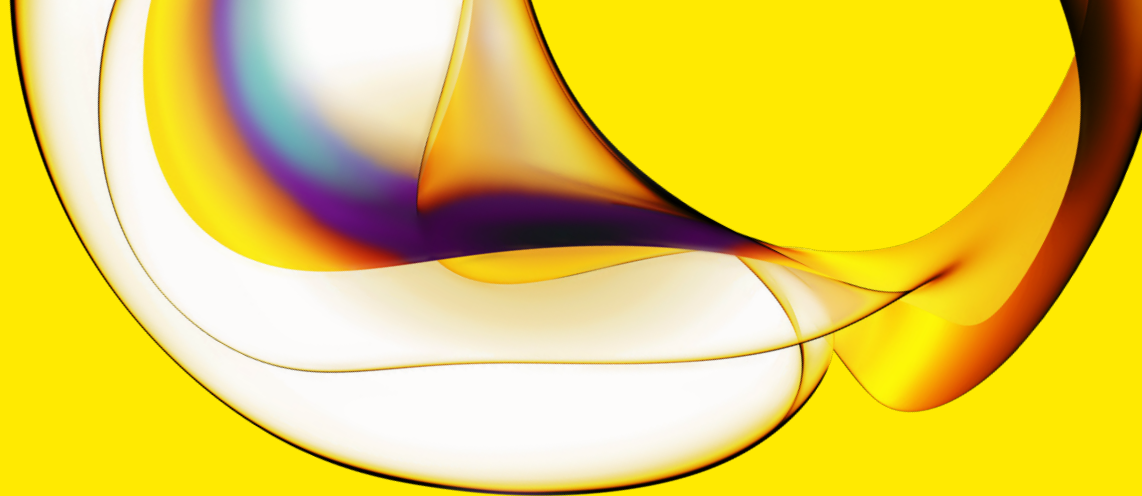

## Dedicated global support team

Our highly experienced global support team can provide you with information and technical support on our CHOSOURCE™ expression platform and CLE services.

Contact our team to find the best solution for your cell-development needs.
